

HEART OF GOLD

A note home from Whip Pediatric Cancer

September is Pediatric Cancer Awareness Month, and gold is its color.

Dear Families,

This September, our school is joining the Heart of Gold Program from Whip Pediatric Cancer, a nonprofit founded by a 16-year-old who believed you are never too young to make a difference. The program funds childhood cancer research and quality-of-life programs for children in treatment.

What your child is doing at school

In class, students are decorating gold paper hearts with their names, artwork, and messages of hope for children fighting cancer. The decorated hearts will be displayed together as our school's Heart of Gold Wall, a reminder that even the smallest acts of kindness can become something extraordinary.

How you can help

Families are invited to make a suggested \$5 donation through our school's Heart of Gold giving page. A donation is never required to participate. Every heart matters, and every heart goes on the wall.

Our school is working toward its Heart of Gold fundraising goal. Please help us spread the word! Share our giving page with friends and family and invite them to donate on behalf of our school.

Finding our school's giving page

Visit whippediaticcancer.org/heart-of-gold and tap "Search For Your School." Type our school's name in the search bar to find our page.

Where the money goes

Every dollar helps Whip Pediatric Cancer fund critical childhood cancer research and bring joy to kids in treatment: care packages, birthday boxes, hospital visits, and support for families who are never left to fight alone.

Thank you for having a Heart of Gold!
